

## Statement from LINK Mobility regarding COVID-19

In accordance with WHO and local authorities in the markets in which we operate, LINK Mobility has taken internal measures to protect our workforce to contribute to reducing the spread of the Coronavirus and to help protect the people most vulnerable to the virus.

Taking this measure into account we ensure you, our valued customer, that business continuity and daily operations are our top priority.

We have established an internal taskforce that is monitoring the situation on a day-to-day basis. Our local management has been empowered to evaluate the ongoing risk and react according to directions and recommendations from local authorities.

All updates with regards to our daily operations can be found on our web page [www.linkmobility.com](http://www.linkmobility.com)

Depending on recommendations by the authorities, LINK has taken actions such as:

- avoiding public transportation during rush hours
- limiting business travel and business gatherings/seminars
- taking extra measures for cleaning in our offices
- encouraging employees to work from home

The computer infrastructure of LINK Mobility is prepared for a large portion of employees to work from home, and therefore we can ensure business continuity and the high quality of our services during these times.

If you need any assistance with planned and/or future communications to your customers, please do not hesitate to get in touch with our Customer Support team : <https://linkmobility.com/support/>

Kind regards,  
LINK Mobility
